MESSAGE

I am very pleased to note the efforts being made by Helpline Health Care Society to render medical help and care to the poor and needy sections of our Society. For an Organisation so young, the services they have rendered by way of creating facilities, Clinics and providing medicine, virtually at the doorstep of the ailing, is deservedly praiseworthy.

I look back to the day when I was invited to inaugurate this Society in 2004 and commend them for what they have achieved against the odds they must have encountered, given the cost of medical help.

I wish this band of dedicated volunteers the very best for the future. May the Society grow from strength to strength as they render service to our Society.

MESSAGE

It gives me immense pleasure to learn that Helpline Healthcare Society (HECSO) a Guwahati based society committed to providing healthcare services/aid to the underprivileged sections of the society is going to organize its 5th Annual Convention alongwith a Health Fair w.e.f. 12th March, 2010 with a three-day long programme.

HECSO within a very short span of its inception has been able to make its presence felt so far as providing voluntary services in the field of healthcare is concerned. The society through its various activities has immensely contributed to the well being of the children, women and senior citizens of the society.

I would like to extend my heartiest best wishes to HECSO on their noble mission and hope that they will continue to serve the society in the same way through their humanitarian activities.
